

Equip Your Nonprofit Audience for What's Next

Presentations that are Approachable, Actionable, and Designed for Busy Nonprofit Leaders

NonprofitNext brings over 30 years of experience in the sector combined with deep technical skills in AI and automation. Our presentations blend real-world nonprofit expertise, practical technology know-how, and the right amount of humor, resulting in an engaging, highly approachable learning experience for your audience.

PRESENTATION TOPICS

1. AI in the Nonprofit World: What Every Leader Needs to Know

An approachable, big-picture overview of artificial intelligence for nonprofit professionals at every level. This session covers adoption, governance, data protection, and real-world automation examples.

2. People First, Technology Second: Leading Your Nonprofit Through the AI Revolution

Explores why a people-first change management approach is essential and provides practical strategies for supporting staff through technology transitions to amplify mission impact.

3. Automating the Back Office: Saving Staff Time on Administrative Tasks

A practical, hands-on look at how nonprofits can use tools like Microsoft Power Automate, Zapier, and AI-assisted platforms to streamline repetitive workflows.

4. AI for Grant Research and Proposal Writing: Opportunity or Ethical Minefield?

An honest, balanced discussion on using AI for funding opportunities and drafting narratives, while exploring ethical questions and necessary organizational policies.

5. Using AI to Measure and Communicate Your Nonprofit's Impact

Covers how AI and data visualization tools can help analyze outcomes and present impact in ways that resonate with donors and boards.

6. Building Your Nonprofit's AI Roadmap

Strategic session for senior leaders on assessing AI readiness, prioritizing mission-aligned use cases, and building a phased implementation plan.

Speaking Fees

Speaking fees vary depending on event size, location, and format. Complimentary presentations are available for qualifying local nonprofit meetings and community groups. Contact us to discuss what works for your event and budget.
